How to Use:

- Insert the plug into the correct power supply. Our flat iron has universal voltage, which adapts to 100-240 V (50/60 HZ)
- Hold the 'ON/OFF' button and hold for 3 seconds; Within 30-50 seconds, the heating plates will reach the default temperature of
- Press the '+' '-' button to adjust the temperature accordingly. We do not recommend using a temperature higher than your hair can bear
- After reaching the desired temperature the flat iron will auto-lock. Press ON/OFF button twice to unlock. Digital display will appear white when auto-lock feature is on, and will appear blue when unlocked. When you are finished using the flat-iron, hold the 'ON/OFF' button for 3 seconds to shut the flat iron off. Unplug the cord and wait for the flat iron to cool down
